Internet por la Democracia.

Clausuren el Parlamento Europeo. ¡Ahora!

To The members of Parliament in the European Union

"Hoy el enemigo no se llama Imperialismo o Capitalismo. Se llama Democracia."

Alan Badiou.

Nosotros pensamos que la democracia representativa es cosa del pasado. Sus días están contados. Poca gente en las llamadas Democracias Occidentales se preocupan por ejercer el derecho al voto. **Se podría decir que la representación democrática no representa a todos.**

Y por eso decimos, es tiempo de aceptar la era del Internet. El Internet presenta una oportunidad nunca antes vista para envolver a nuestra generación, aprovechar el futuro y hacer la diferencia. Dejen que la gente tome decisiones por sí misma, dejen que la gente decida qué es lo mejor para la gente.

Nosotros, los nativos digitales, entusiastas de la red de Internet, anarco-activistas y demás jóvenes europeos visionarios, creemos firmemente en el rol activo del Internet en el proceso democrático.

Con esta petición, demandamos del Parlamento Europeo:

- Que **desistan** inmediatamente de todas sus actividades. No queremos continuar pagando las altas facturas de una máquina burocrática inefectiva, por algo que nosotros podemos hacer mejor desde el confort de nuestros asientos reclinables.
- **Transformen** la democracia a una verdadera experiencia para el usuario. Nosotros declaramos que la democracia representativa ha dejado de trabajar, y ya no es efectiva.
- **Construyan** un nuevo modelo democrático basado en presionar un botón para remplazar el modelo obsoleto de antaño. Los partidos políticos se alejan cada día más de los deseos de la gente, y es por esto que han comenzado a usar los sitios sociales en Internet para promocionarse. Queremos llevar esto hacia adelante, hacia el centro del proceso político, usando la más avanzada tecnología Web 2.0.

¡Firmen esta petición ya! ¡Dejen a la gente decidir!

¡Exigimos Internet por la Democracia!
